

We are the future

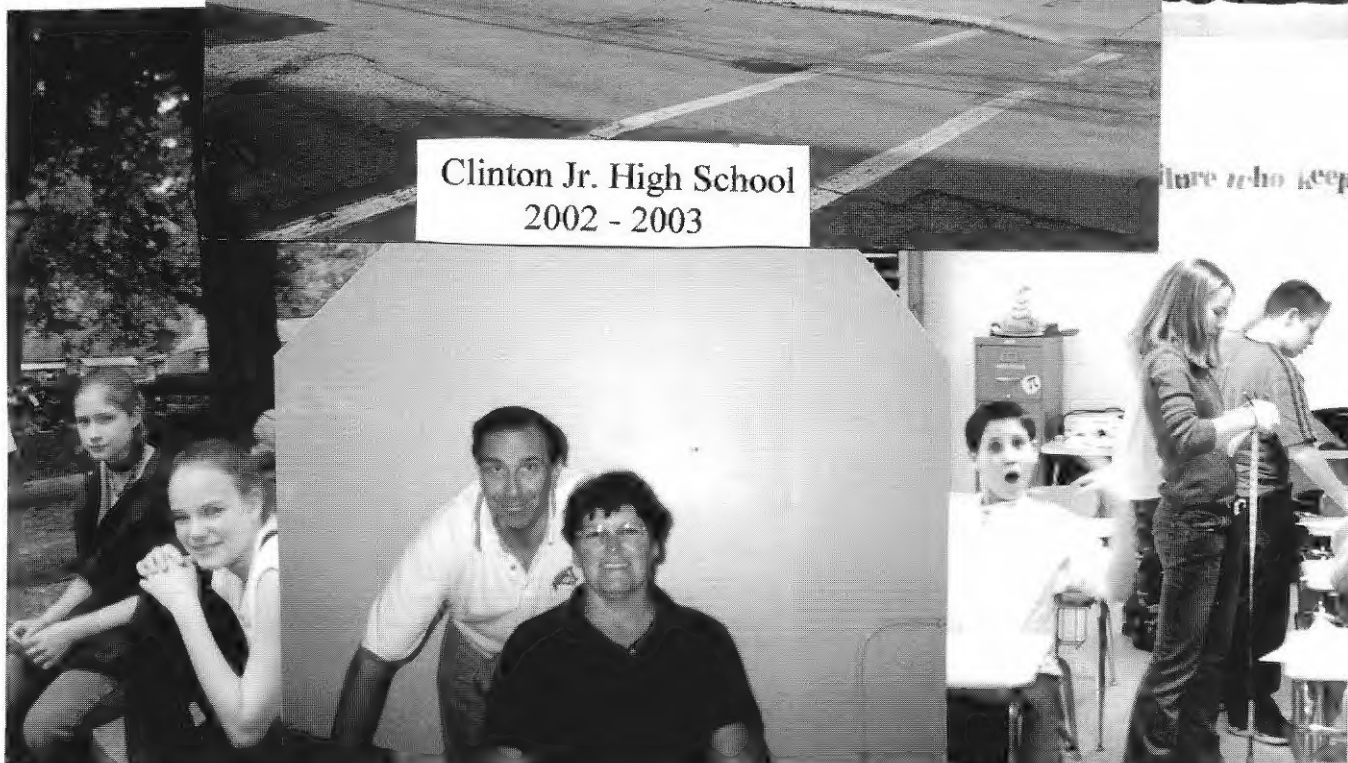

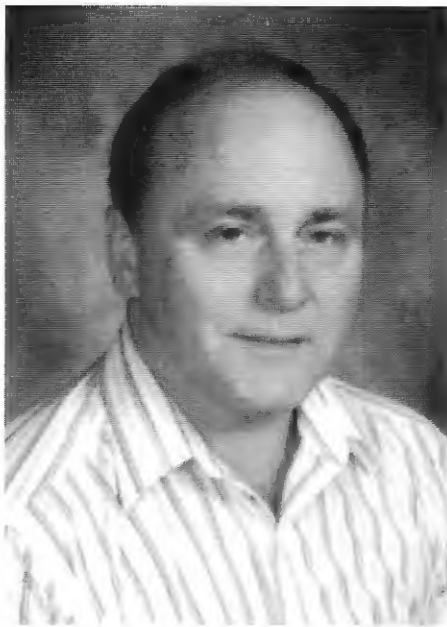

2002 - 2003

Clinton Jr. High School
2002 - 2003

ture who keep

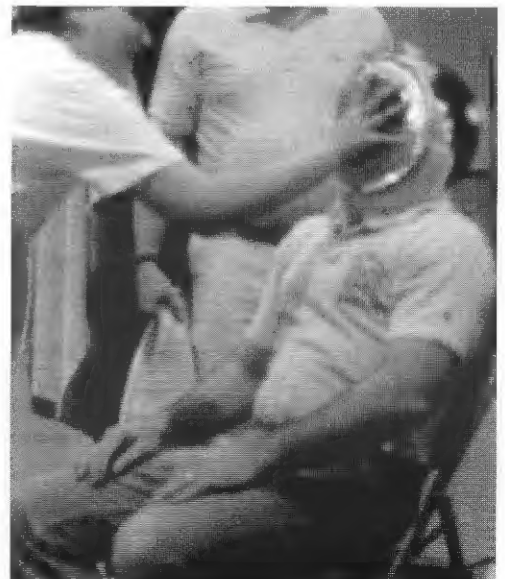

Mr. Terry Milton

My time at Clinton Junior High School has come to its end. Over the years I have developed many friendships with fellow faculty members and students. All teachers, this one included, get a wonderful feeling of satisfaction when a past student contacts us and says "Thank You" for something we've done.

I have always had high expectations for my students and wrestlers. If a person doesn't put their best effort forward every time, there is no challenge and no risk of failure. I have tried to challenge each student and athlete to achieve to the very best of their ability. We should always strive to improve ourselves in the physical, mental, and spiritual realm.

I have enjoyed working with kids this past 33 years. I am thankful for the opportunities to touch people's lives. It has always been my intentions to send on not only a better student but a better person. I know I've made mistakes over the years but in most cases the student's best intentions were at heart.

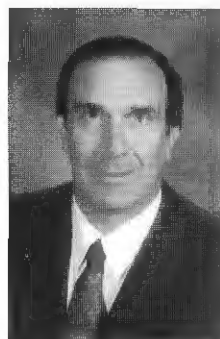

I will miss all the activities, and people. But I won't miss the homework! May God bless the people that make up Clinton Junior High School. Thank you and I'll be seeing you around.
